SAUER 505.
A NEVER ENDING LOVE.

NEW

PRECISION IN ITS MOST
BEAUTIFUL FORM.

THE SAUER ICONIC THUMBHOLE STOCK.

NEW

Hunting demands calm and absolute control – and this is where the Iconic Thumbhole Stock excels. With its modern, swift lines and classic-inspired design, it captivates from the very first moment. Every contour and edge reflects perfected precision. The optimised thumbhole supports quick bolt cycling. In combination with the steep pistol grip and pronounced palm swell, the stock guides the finger almost effortlessly to the trigger – for a shooting position that feels as natural as breathing. The Sauer Iconic Thumbhole Stock – a masterpiece of design and function that fascinates even before the first shot is fired.

HARMONIOUS. INCOMPARABLE. DISTINCTIVE.
A fusion of classic design and modern lines.

PRECISE. HUNTABLE. CONTROLLED.
Steep pistol grip for perfect positioning of the trigger finger.

RELAXED. ERGONOMIC. SAFE.
Distinctive palm swell for a relaxed shooting position.

PRECISE. FAST. SMOOTH.
Thumbhole optimised for quick bolt cycling.

ELEGANT. SOFT. HIGH-QUALITY.
New stock surface with polished wood finish.

MANUFACTURED TO BE
THE BEST BOLT ACTION
RIFLE IN THE WORLD.
THE SAUER 505.

For more than 270 years, J. P. SAUER & SOHN has been providing hunters with firearms that impress with uncompromising quality, utmost precision, and timeless beauty. The latest highlight of this unparalleled history: the Sauer 505. It impresses with its ergonomic design that perfectly combines elegance and dynamics. It promises love at first sight. This irresistible rifle, which will be cherished by generations to come, looks smooth, slender and beautiful.

DURABLE. SOLID. SMOOTH ACTION.
Impressive bolt action: silky smooth, super quiet and extremely fast. A top-of-the-line steel receiver: incredibly robust and, together with the proven saddle mount, a guarantee for absolute precision.

LIGHTWEIGHT. SAFE. COMFORTABLE.
The enhanced manual cocking of the Sauer 505 is very gentle on the thumb. The rifle is cocked only just before the shot. It could not be any safer, quieter, or more comfortable.

PROVEN. PRECISE. INDIVIDUAL.
The adjustable Quattro trigger provides the ideal trigger pull for any hunting situation – individually adjustable to the weights 350, 750, 1,000 and 1,250 grammes.

CLEVER. SAFE. FLEXIBLE.
A great bonus: the integrated MagLock magazine safety which prevents unwanted triggering of the magazine button.

RELIABLE. MODULAR. VERSATILE.
The timeless art of rifle making: one system, 21 calibres. The modular design of the Sauer 505 makes it exceptionally easy to change stocks and calibres.

LEGENDARY. SOPHISTICATED. PERFECT.
The cold hammer forged rifle barrel guarantees the Sauer precision appreciated by experts all over the world. The sophisticated symbiosis of receiver, barrel, bolt assembly and trigger unit for perfect, precise shots is legendary.

THE HEART OF UNPRECEDENTED SMOOTHNESS.

Reloading with the Sauer 505 is pure joy, thanks to the silky-smooth bolt action that has been enhanced to perfection. This level of perfection is owed to the bolt assembly made of a single piece of pure steel and to the steel receiver milled from solid material. With this complex milling process, only 732 grammes of weight remain on the rifle of the solid blank weighing 6,572 grammes. The result of this sophisticated manufacturing process ensures that the rifle has a balanced overall weight while retaining all the benefits of the solid steel material.

EASE AT HAND. THE SUPER-LIGHT MANUAL COCKING OF THE SAUER 505.

Super lightweight and super safe. The enhanced manual cocking of the Sauer 505: Once you have felt it, you will never want to be without it. When you are ready, it takes only slight pressure with your thumb to cock the rifle just before the shot. Uncocking and unloading in the uncocked position are just as easy. It could not be any safer, quieter, or more comfortable.

THE SAUER 505. ONE SYSTEM. MANY OPTIONS.

You can either choose one of the Sauer 505 configuration packages recommended by our passionate hunters and gunsmiths, or you can configure your very own bolt action rifle based on your personal preferences. The reliable constant: the perfect system with silky smooth bolt action. For an unprecedented bolt action experience.

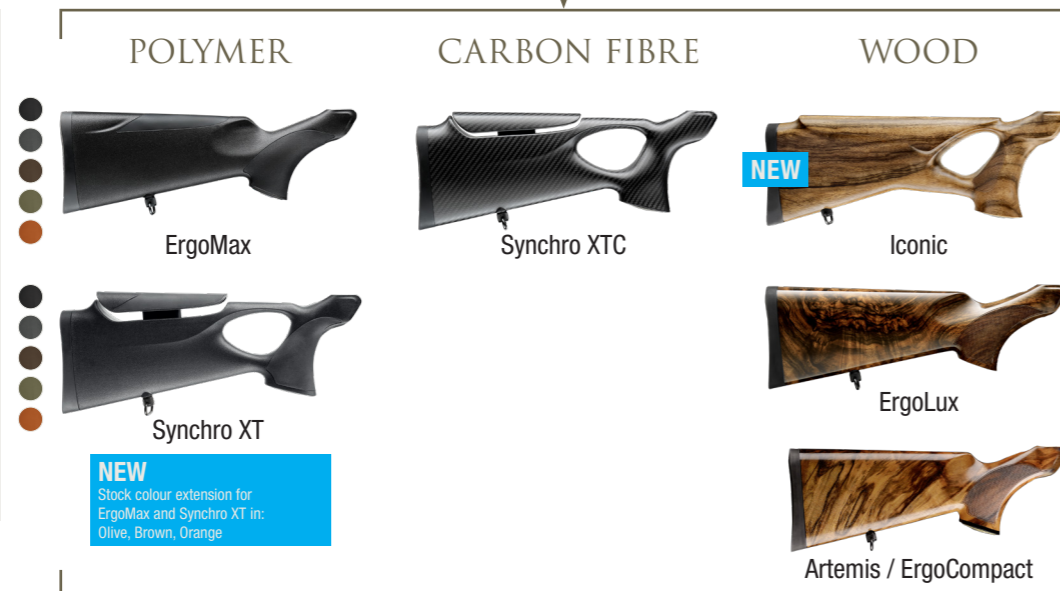

1.

Select your preferred calibre with the corresponding barrel length and contour.

2.

Choose your preferred stock material: polymer, carbon fibre or wood from grades 2 to 10. Optional: the adjustable cheek piece.

3.

Select a predefined configuration package or configure your individual hunting rifle. In any case, you will receive a bolt action rifle that leaves nothing to be desired.

THREE CONFIGURATION PACKAGES. THREE PERFECT RIFLES.

In addition to individual configuration, we offer three configuration packages that have been put together by experienced hunters. The focus is always on the barrel, bolt assembly, and receiver. You can decide whether you would like your rifle with a polymer, carbon fibre or wooden stock, and with or without an adjustable comb.

BEAUTY IN PERFECTION: THE ELEGANCE PACKAGE.

A top-quality gem: with DLC (diamond like carbon) coated surfaces on the barrel and receiver as well as a jewelled bolt. The bolt knob is knurled and topped with the Sauer logo. Luxurious features that can shine fully in combination with a wooden stock just as with a carbon fibre or polymer stock.

STYLISH IN ANY SITUATION: THE HIGHLAND PACKAGE.

Fluted barrel and DLC coating on the barrel, the receiver and even the bolt assembly form the basis for building. For example, a lightweight and easy to handle hunting rifle in combination with a carbon fibre stock or an all-weather rifle with a polymer stock that can withstand any conditions. This configuration package is also captivating in combination with a beautiful wooden stock. Not least thanks to the elegantly knurled bolt knob.

TOUGH: THE OUTBACK PACKAGE.

The all-round options for every day. DLC coating on the barrel and receiver as well as a bolt knob made of anodised aluminium produce a sturdy, robust hunting rifle. Whether as rifle for the hide with an elegant wooden stock, or with a polymer or carbon fibre thumb hole stock for driven hunts: This package forms the basis for a variety of possibilities.

NEW

IN THE RHYTHM OF HUNTING. NEW STOCK COLOURS FOR THE SAUER 505.

Brown, Olive and Orange – with three additional colour options the Sauer 505 adapts to any hunting situation. Due to its modular design, the stock can be changed in a flash, allowing the rifle to be optimally tailored to the type of hunt, season or environment. Brown and Olive provide harmonious camouflage for stalking and hunting from a stand. The bright Orange offers maximum visibility for driven hunts and tracking. For hunters who refuse to compromise.

Synchro XT Black

Synchro XT Grey

Synchro XT Brown

Synchro XT Olive

Synchro XT Orange

All colours also available as ErgoMax stocks.

NEW

FOR THE LOVE OF BEAUTY. THE SAUER 505 AVANTGARDE GRAND LUXE.

With the Sauer 505 Avantgarde Grand Luxe, Sauer presents an artwork for hunters who expect more than perfection: timeless elegance, fine engravings and premium wood combine to create a rifle that expresses personality. Every detail – from the delicate ornamentation to the flawless workmanship – testifies to the highest level of craftsmanship and attention to detail.

ENGRAVINGS TO CHOOSE FROM

MOTIFS:

1. Red Deer
2. Roe Deer
3. Wild Boar
4. JPSS-Lettering

ORNAMENTATION:

1. Acanthu
2. Thistle leaves
3. Oak leaves
4. Fine English

TRUE LOVE LIVES IN THE DETAILS.

For generations, the refinement of hunting rifles has been an expression of hunting tradition and individual style. Whether it is a personally selected stock wood, a bolt knob designed in line with your ideas, a jewelled bolt, engravings on the magazine base and pistol grip cap or the golden J.P. Sauer & Sohn lettering on the receiver: In the ATELIER 1751, we customise your Sauer 505 with a master's touch and great attention to detail, according to your wishes.
